

Create your unique workstation with our smart configurator The Yelper!

Choose the right type of workstation

1. We recommend using Google Chrome or Firefox
2. Go to: <https://configurator.wfi.se/#/?lang=en> or wfi.se/en and click on "The Yelper"
3. Choose whether to log in or not (current prices are displayed when logged in)
4. Choose workstation
5. Choose function (static, crank, or motorized)
6. Choose load capacity (varies depending on the choice of workstation and function)

- Choose a **workbench**: build superstructure with 670 or 900 mm cc
- Choose a **packing bench**: build superstructure with 1400, 1600, or 1800 mm cc
- Choose a **multi workstation**: build a mobile unit

IMPORTANT STEP TO GET THE RIGHT CHOICE OF ACCESSORIES IN THE NEXT STEP!

Customize your workstation

1. Customize eventual dimensions and materials
2. Add accessories under your worktop
3. Add accessories above your worktop (dimensions for superstructure are influenced by other choices)
4. Add other equipment (not visible in the configuration but appears in the summary)
5. Move your accessories using drag and drop to customize your table
6. Remove accessories by clicking on the trash can icon that appears next to the accessory
7. To start from scratch, click on the three lines in the top left corner and select "start over"

Review, share, and request a quote

1. Click on "summary and next step" to see a summary of your configuration
2. Click on "request quote" to submit a direct quote request
3. Go back and click on the three lines in the top left corner, click "share" to share the link (the link is unique and changes every time you modify your configuration)

TIP! SAVE THE LINK TO CONTINUE BUILDING YOUR WORKBENCH LATER
